

All of our training sessions include both theoretical and practical parts. The attendees handle the equipment and/or navigate through the software in order to acquire comprehensive knowledge of their operation. Creaform has a state-of-the-art training room in its Levis headquarters. Nonetheless, our trainers can also teach on the clients premises, whatever suits their convenience.

We offer training ranging from basic to expert level, which curriculum material and duration are tailored to the client's needs.

TRAINING COURSE	Surface Design Expert
DURATION	2 days
LEVEL	Fundamentals
OBJECTIVES	<p>Upon completion of this course, you will be able to:</p> <ul style="list-style-type: none"> • Correctly recall the tools of the Generative Shape Design workbench that are common to MD2 and HD2 licenses • Identify and use the Generative Shape Design tools that are specific to the HD2 license • Create advanced and parameterized swept surfaces • Perform advanced surfaces analysis and gap correction • Improve geometry quality and stability
PARTICIPANTS' PROFILE	Mechanical Surface Designers
PREREQUISITES	Students who are familiar with the basics of wireframe and surfaces creation
CONTENT	<ul style="list-style-type: none"> • Introduction to Surface Design • Creating Advanced Wireframe Features • Wireframe Analysis and Repair • Creating Advanced Swept Surfaces • Creating Advanced Blending Surfaces • Surface Analysis • Additional Surface Design Tools

Creaform is a Dassault-certified training center, through the EPP program.
